ITALY MAY COME BACK INTO FOLD

Rift in Cloud Given Hope of Clearing Up Peace Conference Difficulties.

ROME IS WEAKENING

Italian Delegation Is Reported to Be Willing to Consider Any Overtures Coming From the Supreme Council.

Paris, May 1.—In spite of optimistic views of the French press on the effect of Premier Orlando's speech in the Italian parliament, there were no indications in Peace conference circles of any feeling that the situation had altered materially. On the part of the Council of Three there were no signs of yielding. If the Italians expect some proposal from Paris, they will find no response.

Paris, May 1.—There is a slight rift in the Italian cloud, which gives hope of the clearing of the difficulties that have arisen in the Peace conference over the Adriatic problem.

Overtures for resumption of relations have not come thus far from either direction, but there are intimations from Rome, that overtures from Paris would not be unacceptable and would receive every attention.

Return Not Solicited. The prevailing sentiment among the delegates, including several of the American delegation, is against soliciting a return of the Italian representatives and it was at first believed President Wilson shared this view.

Those nearest the President, however, asserted that if Italy is disposed to relinquish Fiume, and accept the compromise the President suggested, he could doubtless, in the interest of harmony, make such friendly suggestions as would permit the resumption of relations by the Italians without any sacrifice of dignity or self-esteem.

Compromise Intimated. These personal susceptibilities are felt to be more of an obstacle at present than the territorial merits of the case. While popular sentiment in Italy still insists on holding Fiume, the recent official attitude has been less insistent and apparently tends toward acceptance of one of the various plans proposed by the Council of Three, whereby Fiume would be internationalized and some Dalmatian outposts given to Italy.

It is the declared purpose of the council as well as President Wilson, not to yield on Fiume, even if the peace treaty is signed without Italy's participation. But should the recent official tendencies at Rome take the definite form of acceptance of a compromise, the President's friends say they are sure that no feeling of pride will restrain him from taking steps which will fully restore the Italian delegation to its former agreeable status in the conference.

Credentials of German Delegates Considered Today

(By Wm. Phillip Simms)

(United Press Staff Correspondent.) Versailles, May 1.—The first meeting of the allied and German peace representatives scheduled for eleven o'clock this morning, was postponed until the afternoon. The meeting in the famous Trianon Palace hotel is limited to the presentation of the enemy delegates credentials. The examination and confirmation of these documents is expected to take at least 24 hours. Foreign Minister Brockdorff Rantzau heads the German delegation, and Jules Cambon is head of the allies credential committee.

Meanwhile the assembling of the articles of the treaty was reported progressing satisfactorily. Confidence was expressed that it would be ready for the Germans by Saturday, certainly not later than Monday. Forty thousand words, or about half of the treaty already have been cabled to Washington.

Officials believe it was intended for a bloody May day demonstration of the bolsheviks. The bombs opened by the officials were found to contain high explosives.

LAUNCH BIGGEST SHIP

Superdreadnought Takes to Water at New York.

Largest and Most Powerful Battleship Ever Built—Governor's Daughter Christens Vessel.

New York, May 1.—The most powerful battleship ever built in the history of the world, the superdreadnought Tennessee, a 32,000 ton monster, which will cost \$15,000,000 when completed, was launched at the New York navy yard in the presence of more than 75,000 persons.

The ceremonies were set for 9:45 a. m., as at that time occurred the only tide in the course of a month capable of floating the craft.

The sponsor, Miss Helen Roberts, the 16-year-old daughter of Governor A. H. Roberts of Tennessee, a "dry" state, acquiesced in the time-honored naval custom of breaking a bottle of champagne over the bow as the vessel slid down the ways. Miss Roberts was attended by 13 maids of honor.

Ship Last Word in Design. Governor Roberts and his staff and many distinguished citizens of Tennessee, together with high officials of the navy, occupied the reserved section at the vessel's bow.

The keel of the giant fighter, which is the fifth to be named Tennessee in American history, was laid May 14, 1917, and it is expected to be completed early in 1920. It is a sister ship of the U. S. S. California, now under construction at the Mare Island navy yard. Each ship is said to embody the latest ideas in battleship protection and efficiency.

624 Feet in Length. The Tennessee is 624 feet over all in length and its extreme breadth to the outside armor is 97 feet 3 1/4 inches. Its draft is 30 feet 6 inches.

It will have a speed of 21 knots an hour and its eight water tube boilers will develop 20,000 horsepower. Its fuel oil capacity under normal conditions will be 1,900 tons.

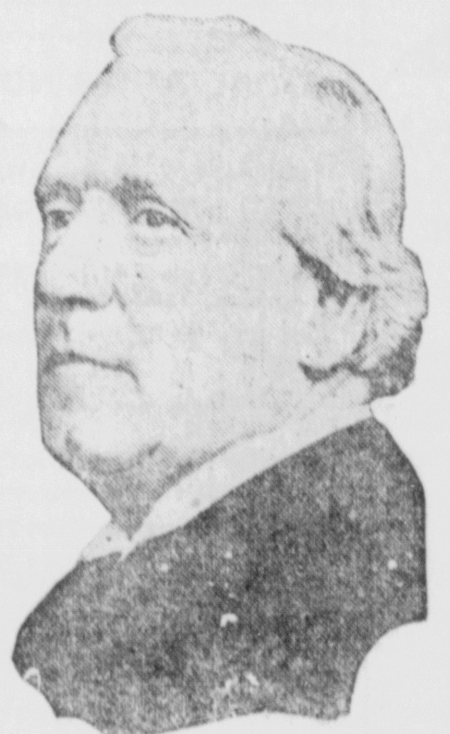

The armament will consist of 12 14-inch guns, 14 five-inch guns, four six-pounders, four anti-aircraft guns and two torpedo tubes. The range of its guns is from 12 to 13 miles.

16 DEADLY BOMBS FOUND IN MAILS

Six Others Have Been Delivered to Homes of Prominent Public Men.

SEARCH IS UNDER WAY

Clerk in New York Postoffice Finds Infernal Machines After Reading of Explosion of One in Georgia.

New York, May 1.—With the discovery in the New York postoffice of 16 infernal machines, in addition to six others that have been delivered to prominent men in various parts of the country, federal detectives started a search for the senders of the dangerous missiles.

The 16 bombs found were addressed to prominent men, including judges and cabinet members, while the six thus far delivered to addresses through the mail reached the offices or homes of the following:

Former Senator Thomas Hardwick of Georgia; Congressman John L. Burnett of Alabama; Federal Judge K. M. Landis of Chicago; Mayor Ole Hanson of Seattle; District Attorney Charles M. Fickert and his assistant, Edward M. Cunha of San Francisco.

None of these men has been injured by the bombs, but Senator Hardwick's wife and a maid were severely hurt. The parcels bore similar mechanisms, arranged to explode on opening, and were sent as "novelty samples" from New York with a fictitious tag, indicating that they came from the store of Gimbel Brothers.

Held for Lack of Postage.

The packages found in the New York postoffice were discovered by a mail clerk, after reading of the bomb exploded at the home of Senator Hardwick. They had all been held for lack of first-class postage.

The addresses were all typewritten. The style and a couple of minor errors led officials to believe that the addressing was done by a foreigner.

Clerk Makes Discovery.

A slip on the part of the senders of the infernal machines coupled with the sharp wits of a postoffice clerk, were all that prevented the bombs from being delivered. The 16 packages were mailed Saturday night in a box somewhere in the neighborhood of Thirtieth street and Broadway. They had the correct postage for the parcel post, but were sealed with red wafers and therefore could be accepted only as first-class matter. Accordingly they were sent to the general postoffice to be referred back to the sender.

Each parcel had the name of Gimbel Brothers printed on it.

Later a representative of Gimbel Brothers called on Inspector Cochran and, after examining the parcels, declared the wrappings had never originated in the department store.

Switzerland and Spain have sent equally definite refusals to permit Lenine and Trotsky to find a haven within their borders.

FOR MISS MARJORIE PARKER

Given Birthday Party in Verndale at the Home of Mr. and Mrs. Earl Frazier

(Verndale Sun)

Last night a group of the young ladies about town pleasantly surprised Miss Marjorie Parker, it being her birthday, at the Earl Frazier home. The evening was spent in dancing and at midnight a delicious lunch was served. It is the custom at a dancing party when the girls outnumber the boys for some of them to wear a band on their arm to designate who they are. There were no boys present at this party and yet they danced and bands on the arms were not necessary as some of the girls had the audacity to don men's attire. Those present were: Mrs. S. H. Parker, of Brainerd; Mr. and Mrs. R. L. Hinkle of Crosby; the Misses Oswald, Quinn, Anderson, Holland and Mary and Flora Bradford. Mr. and Mrs. Earl Frazier acted as host and hostess. They all report a great time.

Telephone Rates Must be Higher

Increased Operating Expenses Require More Money

Telephone expenses have gone up rapidly the last few years.

Telephone rates have not advanced in proportion to the cost of furnishing the service.

This chart shows the small increase in Bell Telephone rates for the country as a whole during the past six years as compared with the increased price of other things during the same period.

The cost of furnishing telephone service has advanced because of the increased cost of material to the telephone company and the increased living expenses of employees.

Everyone realizes the necessity of paying more for rent, for food, for clothing, for wages and for transportation.

The telephone industry has been affected by the same conditions which have produced higher prices in all the necessities of life.

If this Company is to continue to furnish dependable telephone service to the public it must obtain such rates as will produce a revenue sufficient to cover the cost of providing the service.

NO NIGHT BIRD

The night life is not conducive to longevity, or in other words, stay up nights and you cut out any chance to reach four score and ten.

John Burroughs, the naturalist, at age 82 remarked with a great deal of truth:

"I'm just as limber as I ever was. I haven't an ache or a pain. I don't take long tramps any more—that's the only difference. I don't go hiking off so far alone. But I congratulate myself that I am as well as I am, and it's because of a simple life. There has been nothing abnormal about my way of living."

"And I'm not a night bird," said Mr. Burroughs who has made a study of all kinds of birds and knows their habits well.

"When the birds sing, I sing," said John in conclusion.

SUMMER PROGRAM N. M. D. A. IN JUNE

In Addition to Many Recreational Pleasures There Will be Addresses on Timely Topics

LIST OF SPEAKERS ARE GIVEN

Every Phase of Development of This Part of Minnesota Will Come Up for Discussion

The tentative program for the Northern Minnesota Development Association summer convention, to be held at Cass Lake on June 20-21 is completed and the committee, acting in harmony with the old saw, "All play and no work makes Jack a mere toy" has secured a number of able speakers to discuss important subjects at the convention, although much of the time will be spent in recreation pleasures and the discussion of recreational subjects.

Secretary, F. T. Lincoln of this city announces the following speakers who have been secured and their subjects:

Chas. P. Craig, Duluth—"Deep Water-Ways Connection with the Ocean."

Hon. F. A. Duxbury, Caledonia—"Our Common Problems."

Carlos Avery, State Game & Fish Warden—"Minnesota, the Natural Vacation Ground of North America."

E. M. McMahon, General Secretary, St. Paul Association—"The Office of the Larger Cities in Development Work."

Hugh J. Hughes, Managing Editor Farm Stock & Home, Minneapolis—"The Value of Dairying Products to the Human Race."

Hon. P. H. McGarry, Walker—"The Babcock Trunk Highway System."

H. M. Gardner, Vice President, Civic and Commerce Association, Mpls.—"Northern Minnesota, a Tangible Asset."

E. T. Winship, President, Minnesota Automobile Association—"Tourists' Routes to the Land of Promise."

E. A. Colquhoun, County Agent St. Louis County—"Public Markets for Northern Minnesota."

O. M. Olson, County Agent, Roseau—"Sheep as an aid to Clearing Land."

Hon. Robert Carmichael, Farmington—"Fertility of Minnesota Soil."

Chas. G. Roth, Manager St. Paul Hotel, St. Paul—"Twin City Hotel Men and the Northern Minnesota Tourist."

Clyde D. Campbell, County Agent, Park Rapids—"Sheep Husbandry in Northern Minnesota."

M. V. Goussier, Assistant professor in Animal husbandry, state university—"Promoting the Sheep Industry in Northern Minn."

Royal Family Names.

Members of the royal families have no surname—that is, no family name such as ordinary people are known by. There is a good deal of discussion on the subject and Mr. Cokayne, an authority, says that the prevailing idea that the family name of the house of Hanover, to which Queen Victoria belonged, was Guelf, may be dismissed as absurd, that having been the Christian name of a medieval duke of Bavaria, whose sister in 1040 married the marquis of Este, and it is from that couple that the house of Hanover descended. Hence d'Este comes nearest to being the maiden name of Queen Victoria.

LEAGUE GETS BIG MENTION AT START

Daily Papers of Circuit Give Good Story, Weeklies Will Also Respond in Publicity

BIG CITY PAPERS CARRY IT TOO

Brainerd Dispatch Featured It With a Double Column Head—Now Boost Your Home Teams

The Central Minnesota Baseball League, formed Sunday at Little Falls was given fine publicity by the dailies in the circuit which include the St. Cloud Journal-Press, St. Cloud Times, Little Falls Transcript and the Brainerd Daily Dispatch, the latter playing it up with a double column heading.

The various weekly papers in the circuit will also be as generous in boosting the story of the league's formation.

City papers also gave the league a good mention. It all contributed to show that baseball is alive in Central Minnesota and it is proving an incentive to other districts to organize.

What is needed now is for every home paper in the Central Minnesota League territory, Brainerd, Little Falls, St. Cloud, Ironton and Crosby, to boost their home team. News of progress in training teams, players rosters, etc. every angle of home baseball will be news and home managers should not be chary about giving out information to keep interest stirred up.

Brainerd Young Man, Banker of Bozeman, Mont., in New Bank Organized There

TO HAVE CAPITAL OF \$100,000

H. S. Buell to be President of Bank and Wilfred N. Purdy to be Cashier of Institution

A Bozeman, Mont., paper reports the organization of a new \$100,000 bank in its city, the cashier of which will be a Brainerd young man, Wilfred N. Purdy, son of Mr. and Mrs. Archie Purdy, who gained his first banking knowledge in Brainerd. The article follows:

A new banking institution and trust company with Bozeman capital is being organized in the city and expects to be ready for business by the beginning of July or the first of August. A state charter has been applied for, according to the reports, and the capital stock is fixed at \$100,000. It is further stated that all of the stock has been subscribed. In fact there has been such a demand for the paper, that many prospective purchasers have to be refused.

H. S. Buell, member of the state legislature from Gallatin county and head of the real estate and land firm of H. S. Buell and company, will be the president of the bank.

W. N. Purdy, assistant cashier of the Commercial National bank of Gallatin county, will be the cashier of the new institution.

Neither the name of the bank or the location in the city have been decided upon, according to the people interested. It is said that these will be known within a few days.

MAY DAY STRIKE ON CUYUNA RANGE

The Cuyuna iron range was circumscribed for a May Day strike, but with little effect on the miners. Many of the mines of the north range are quiet with little force to walk out. With some nationalities like the Finns, May 1 is a general holiday and they did not work on that account.

The idea of a strike in dull times in mining business with few men employed seems like a joke to any one acquainted with labor conditions and the ore market.

AMUSEMENTS

"The Shepherd of the Hills"

The author Harold Bell Wright with Elsbey Reynolds his publisher has formed a company which will be known as the Harold Bell Wright Story-Picture Corporation, which will place upon the screen the best known of Mr. Wright's works. This announcement should be of interest not only to the countless millions of Mr. Wright's readers, as well as the leading motion picture producers, theatre managers and all others connected with the promotion of the motion picture industry, for in placing the stories of Mr. Wright in pictures a wealth of new and fine material will be given to the motion picture camera. Any one of this author's stories contains enough drama to make several motion pictures, and they should take a prominent place in a field where a dearth of good material is often felt.

The first story to be pictured is "The Shepherd of the Hills," perhaps the best loved of all Mr. Wright's stories. The author and his associates have been working for months on this production. The picture has been taken in the heart of the Ozarks and in California. It is a ten reel super-production with incidental music forming an evenings entertainment.

At the Park theatre Thursday and Friday, May 1 and 2.

At the Best Tonight

The role of Jack Merrill, a wealthy young clubman with time heavy on his hands, who seeks adventure and finds it, turning it to good account, is one which afforded Bryant Washburn a keen sense of enjoyment during the filming of "Something to Do," which will be shown at the Best theatre tonight.

Mr. Washburn displays a sort of polite and clever comedy that is characteristic of him alone, and his role in this picture affords him an excellent opportunity to employ his talents. And as to like one's work is to do it well, the result is a picture which will be a "knock-out" for Bryant Washburn.

At the Best Tomorrow and Saturday

Some of the most remarkable interior sets ever seen in a motion picture form the background for "Getting Mary Married," Marion Davies' latest picture, which can be seen tomorrow and Saturday at the Best theatre.

Marion Davies was never more beautiful in her life and she is cast in a role for which she is admirably adapted and of which she takes full advantage to display her talents. "Getting Mary Married" is a high

What Is The Cause of Headache? Backache?

Backache is perhaps the most common ailment from which women suffer. Rarely do you find a woman free from it. Sometimes the cause is obscure but Dr. Pierce of Buffalo, N. Y., a high medical authority says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptom may be backache, or headache, dizziness, accompanied by bearing-down sensations, weakness, irregularity, painful periods, irritation, and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs, put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing injurious. In taking Favorite Prescription, it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do.

It is the story of a girl who is held under the thumb of aristocratic but avaricious relatives. Her step-father has stipulated in his will that she must live with his brother's family for one year before she can get one cent of the fortune he has left her. Circumstances force her to make an attempt to live with her relatives for the year.

BRAINERD PAYS LUXURY TAXES

May Day Inaugurated by Taxes on Luxuries—How to Escape Payment on Ice Cream

EAT YOUR ICE CREAM AT HOME

Clothing, Furnishings Above a Certain Price are Taxable—Much Work Book Keeping

Braierd today received its first taste of the luxury tax inaugurated to take effect May 1. They are to help pay the country's war bill.

The tax is 10 per cent on clothing and furnishings above a certain price, on toilet articles, patent medicines and on soft drinks.

Ice cream sundae eaten at the counter or table where they are sold will bear the tax of 1 cent on each 10 cents or major fraction over 10 cents, but revenue men have said that the tax will not apply to ice cream bought and taken away to be consumed elsewhere.

Home Consumers Escape Tax

The man who buys a pint of ice cream and takes it home in a bucket will not pay the tax, and the boy who buys an ice cream cone and takes it out on the sidewalk to eat it will make no contribution to the cost of the war.

The new scale of prices, unless drink vendors add extra pennies and increase the price of each drink 5 cents, to include the war tax, will run as follows:

10c drink	11c
15c drink	17c
20c drink	22c
25c drink	28c

Here's "Luxury List"

In all cases, it is predicted, dealers will add the amount of the tax to the price of goods. The "luxury list" proper, includes clothing and various personal articles costing above a certain price, all bearing a 10 per cent tax on the excess over the certain price. The list follows:

Men's and boys' hats, on the amount in excess of \$5 each.

Men's and boys' caps, on the amount in excess of \$2 each.

Men's, women's, misses' and boys' boots, shoes, pumps and slippers, on the amount in excess of \$10 per pair.

Men's and boys' neckties and neckwear, on the amount in excess of \$2 each.

Women's and misses' silk stockings or hose, on the amount in excess of \$2 per pair.

Men's shirts, on the amount in excess of \$3 each.

Men's women's, misses' and boys' pajamas, nightgowns and underwear, on the amount in excess of \$5 each.

FORMAL OPENING OF LUM PARK

Myriad of Attractive Concessions to be Put in Place When Warm Weather Arrives

Braierd lovers of the terpsichorean pastime will assemble tomorrow night at the formal opening of Lum Park, the well known amusement center on the shores of Rice lake, assuring Falconer and Christoff, the managers, that the community in general is in a receptive mood and appreciate the enterprise of the two gentlemen who have the park well under way to become a most popular resort. The summers of 1917 and 1918 were quiet ones for the park due to the war, but now, with the majority of the boys who responded to the call of their country back again, its absolute success is assured.

On the opening night the well known Blue Ribbon orchestra will furnish the music, but the managers are not restricted to certain individuals or orchestras—the best musical talent in the city will be engaged to furnish the music throughout the season.

The largest open-air pavilion will be used for roller skating also and certain nights and afternoons will be designated by the management for this sport.

For the purpose of stimulating greater production and higher quality of potatoes in this community, the Northern Pacific and the Minnesota & International railways have secured the services of F. Benz of Toppenish, Washington, who will deliver a series of free public lectures.

He will present scientific and practical methods of increasing production, best methods of combating potato diseases, best methods of soil preparation, planting and cultivation, and will show how greater cash returns may be secured for either seed or commercial stock.

PLAN HOME COMING FOR GOPHER SOLDIERS

Reception in Honor of All Men Who Served, Soldiers, Sailors and the Marines

MAGNIFICENT PARADE FEATURE

Special Reviewing Arrangements Made at State Capitol for Relatives and Friends

To the Editor:

You probably know that a splendid home coming is being planned in Saint Paul for the returned soldiers, sailors and marines, to take place upon the arrival of the 151st Field Artillery. We confidently expect this to be one of the most impressive public occasions ever held in this State.

The exact date of this celebration is not certain; but we expect the 151st to come directly to Saint Paul at the earliest possible moment permitted by the War Department. The principal activity of the day will be a magnificent parade, including escort of the National Guard, the 151st Field Artillery, all the other returned service men in uniform and the wounded soldiers now at Fort Snelling. This will be officially reviewed by the Governor and his staff, City Officials, veterans of former wars, and by relatives of the returned soldiers.

Special reviewing arrangements are being made at the State Capitol for the use of relatives and friends from outside Saint Paul. These will accommodate several thousand people and admission to them will be only by ticket.

As the exact details are worked out, following official notice as to the date of the arrival of the 151st, you can readily inform yourself concerning them by following the notices in the Saint Paul daily papers.

We shall appreciate any publicity which you may give to this occasion. Trusting that you will be interested and able to be present, we are

Very sincerely yours,

SAINT PAUL ASSOCIATION

A. B. Driscoll, cting Pres.

E. M. McMahon, General Secy.

P. S. This reception is in honor of all men who served.

Register at Chamber

Members of the immediate family and relatives of returning soldiers and sailors of this city and locality will be afforded the opportunity to witness the monster parade and celebration, to be held in St. Paul in the near future at the time of the return of the 151st Field Artillery if they act promptly in conjunction with the Chamber of Commerce.

An invitation, received today from the St. Paul Association of Public Affairs, calls for a canvass of the city and vicinity, in order that the number of reservations may be known and made.

The list must be sent in by Saturday of this week. Members of the family and relatives of returning soldiers and sailors now home or across the seas are urged to advise the Chamber of Commerce at once if they intend to witness this great demonstration and a seat will be reserved for them. The time to act in this matter is now. List your name at once for a reserved seat, free of cost to you and it will be arranged for.

Home Service Committee

Preparations have been made at St. Paul to have a celebration when the 151st Division comes home, and all soldiers and relatives of soldiers are invited to attend this celebration. Reservations will be made on the review stand, if the names of those who wish to attend are handed in to the Red Cross at the Chamber of Commerce rooms, before Saturday, May 3.

If you wish to attend, please give your name in to the Home Service committee of the Red Cross at the Chamber of Commerce rooms.

Look and Feel
Clean, Sweet and
Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Futurist Undergarments The New Undergarments for Women

Women may now have a comfortable underwear the same as the men. For several years manufacturers have been experimenting trying to make a successful undergarment of dainty materials such as nainsook and kindred fabrics. At last they have succeeded and the FUTURIST underwear is the result.

We have just placed this new underwear in stock and we shall take pleasure in acquainting you with it. We believe that you will be pleased to know more about it.

Violin "Camouflage."

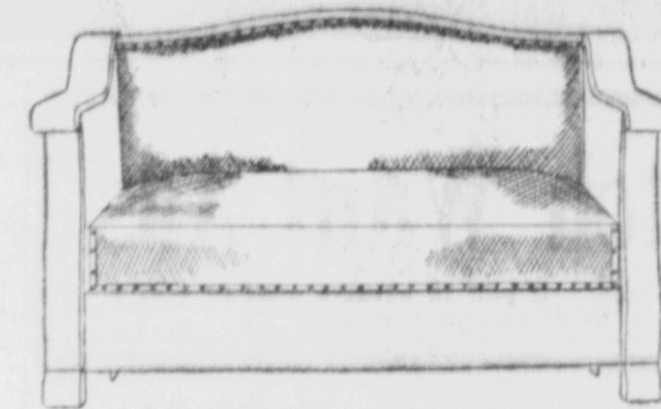

The word "feet" is of Latin origin, and means made, or manufactured. It was in general use by the Cremona violin makers; and has been copied by modern makers, chiefly for deception. The modern imitators of old violins retained the old form of affixing the date,

A Very Pretty Picture

Of a very Mediocre Piece of Furniture, made of Plain Oak (not quartered and rather light) Imitation Leather (of a fair grade) with shoddy filling and light springs—flashy looking—sold at a fair margin of profit at \$43.75.

A Very Ordinary Picture

of an Exceptional Quality of Furniture. Genuine American Walnut thruout, upholstered in Genuine No 1 Spanish Leather, best oil tempered guaranteed springs, best cotton and burlap padding sold, also at a fair margin of profit at \$94.50.

Moral: You can't always tell about furniture from looking at pictures. But when you buy of Clark's you get quartered oak when you are told it's quartered, genuine mahogany when you are told it's that—or you get your money back P. D. Q. by asking. There are tricks in all trades—lots of them in the furniture game—and the one safe trick that we have found successful is "playing square." We are in business to stay—to "make good" on every thing we sell. You will find a lot of satisfaction in opening a charge account.

Where Blame Lies.

Life starts most of us out with an excellent endowment of strength. It is our own abuse of this strength that brings about our ailments. Life starts most of us out with courage and will. It is our own neglect of these qualities that sets courage and will dwindling. Life starts most of us with very good looks or with looks that are good enough. It is our own neglect of personal care that makes us plain looking.

Easy Immobilization.

In birds and mammals immobilization can be occasioned at will. In the seventh century Kircher immobilized fowls merely by turning them upon their backs. The experiment can be successfully made with any kind of bird. I have performed it with sparrows, with a wryneck and with the finch immediately after their capture, thus excluding all idea of training. The same result can be obtained with various mammals, especially with mice.—Exchange.
